

Christian Robleto

Data & Automation Analyst · Python · Applied AI

Pamplona, Navarra +34 643 40 80 08 cgalileorr97@gmail.com linkedin.com/in/chris-robleto

Tools

Python · pandas · Power Automate Desktop

SQL · Power BI · Salesforce · LLM APIs · ML · Chart.js · Excel (Advance) · R · MS Azure · AWS · RapidMiner ETL / Data Integration · REST APIs · Business Analysis · Scikit-learn

Areas of Expertise

- Process automation and RPA
- Data pipelines, integration and quality
- Data visualization, BI and KPIs
- Applied AI and language models
- CRM and Salesforce

Education

Master's Degree in Data Analysis for Engineering
TECNUN, University of Navarra · 2024 – 2026

Master's Thesis: 'Design and implementation of an automated OSINT- and LLM-based pipeline for the qualification and prioritization of potential donors at CIMA.'

Industrial Engineering
Universidad Americana (UAM) · 2015 – 2019

Diploma in Logistics Operations
Universidad Americana (UAM) · 2019

Languages

Spanish	Native
English	C1

Professional Summary

Industrial engineer and data analyst specializing in automation and applied AI. I design Python pipelines that integrate data sources, APIs and language models to replace manual tasks and support business decision-making. More than three years of prior experience in operations and supply chain provide a strong focus on efficiency, KPIs and process improvement.

Professional Experience

Data Analyst — Institutional Development

CIMA, University of Navarra · Pamplona · 09/2025 – Present

- Designed and implemented a Python pipeline (SerpAPI + LLMs) to enrich and prioritize profiles from open sources: 56,000+ records processed and ~10 profiles prioritized per week with human review.
- Developed a Python and Chart.js dashboard covering 2,300 records, translating RFM segmentation into four actionable strategies.
- Automated Salesforce record creation using Power Automate Desktop.
- Integrated and normalized multiple sources (Parquet and CRM) into a master dataset for analysis and maintenance of the internal database.

Logistics Operations Manager

KUAI Logistics S.A. · 08/2023 – 08/2024

- Coordinated logistics planning, inventory management and transport route optimization.
- Designed and monitored operational efficiency KPIs used to support negotiations and decision-making.
- Negotiated with suppliers and monitored costs and quality, identifying opportunities for operational improvement.

Supply Chain Analyst

VF Corporation · 03/2023 – 07/2023

- Analyzed and resolved supply chain issues, including production reporting and monitoring of operational metrics.
- Developed a supplier allocation model aimed at reducing operating costs, coordinating requirements with brands and export standards.

Operations Coordinator

Hugo Technologies S.A. · 07/2020 – 02/2022

- Reduced estimated delivery time (ETA) by 18%, positioning the operation as the best-performing in the region.
- Optimized distribution logistics and led operational teams, with ongoing monitoring of service performance indicators.
